# 3M" Locating and Marking System 

Identify underground assets quickly and accurately

## A complete solution for construction and maintenance

The full line of 3 M locators and markers helps to quickly and accurately identify underground assets. Designed as fully-featured kits with all-in-one capabilities, you will be ready for a wide range of jobs.

## 3M ${ }^{\text {M }}$ EMS Path Marking

 Tape and Rope
## A new approach to path marking

Our latest innovation, $3 \mathrm{M}^{\mathrm{m}} \mathrm{EMS}$ Path Marking Tape and Rope, is virtually a maintenancefree solution for marking and locating the path of underground plastic pipes and conduits that helps eliminate the problems and costs associated with tracer wire and test stations.
3M EMS marking tapes and ropes are embedded with markers that are activated using a 3M"' Dynatel"' Locators 7000 Series. Their intrinsic benefits save time and money.

- They can be installed near or above buried assets
- They are easy to follow, creating a detectable path above ground
- For use in open trench and HDD (Horizontal Directional Drilling) applications
- They do not require batteries and there is no need to hook up an external transmitter or spend time searching for access points
- The markers work independently, so even if a section of path marking tape/ rope is cut or removed, the other markers on the tape/rope will continue to provide an accurate location
- They come in 5 frequencies, creating a unique identification for each utility type

|  | Depth | Roll Length | Marker Spacing | Telephone | Power | Water | Wastewater | Gas |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Tape | up to 4 ft | 400 m | 8 ft | 7611XR | 7612XR | 7613XR | 7614XR | 7615XR |
|  | up to 3 ft | 400 m | 12 ft | 7611 | 7612 | 7613 | 7614 | 7615 |
| Rope | up to 4 ft | 300m | 8 ft | 7701-HTS | 7702-HTS | 7703-HTS | 7704-HTS | 7705-HTS |
|  | up to 4 ft | 300m | 8 ft | 7701-R | - | - | - | - |
| HTS $=$ High Tensile Strength |  |  |  | XR = Extended Range |  |  | $\mathrm{R}=\mathrm{In}$-Conduit |  |

## 3M" ${ }^{\text {" Point Marking }}$

## Marking points of interest

Unlike surface features, maps and other methods of recording position, the $3 M^{\text {tw }}$ Marker is a constant point of reference you can depend on.
3M markers:

- Operate in all soil types; under asphalt; cement; and wet or dry soil
- Are color-coded to APWA standards
- Provide easy positive identification with each utility having its own frequency
$3 M^{T w}$ iD Markers can be customized to include customer-specific information such as:
- Facility data
- Material type and size
- Type of application
- Placement date

All of this information can be accessed in the field through a 3M iD model locator, but also uploaded and used with your GIS system.

3M" EMS Near Surface Marker Ideal for marking at shallow depths of $2-3$ '

## 3M"EMS Ball Marker

Self leveling feature, suited for depths of 5-6'

3M" ${ }^{\text {" }}$ EMS Mini-Marker
Designed for maintaining a stable position after placement at depths of 6'

3M" EMS Full Range Marker
Suited for deep applications of up to 8-9'

3M ${ }^{\text {m" }}$ EMS Disk Marker
Ideal for marking at shallow depths of 3-5'

# 3M" ${ }^{\text {" }}$ Dynatel ${ }^{\text {" }}$ Pipe/Cable/EMS Locator 7500 Series 

Cable/Pipe/Marker and EMS Tape Locators 7550-iD Cable/Pipe/Fault/Marker and EMS Tape Locators 7573-iD

For powerful precision locating, choose Dynatel locators 7500 series. These locators combine advanced digital processing and simple interfaces to help you quickly locate 3M ${ }^{m 1}$ EMS Path Marking Tape/Rope as well as existing electronic markers (balls, near-surface, full range, etc.).

As with all 3M Dynatel Cable/Pipe Locators, the 7500 series provides accurate pipe, cable, or sonde depth measurements, giving a digital readout in feet and inches, or centimeters (user-selectable). All Dynatel locators 7500 series and fault finders are also compatible with select GPS/GIS field mapping instruments for real time mapping of electronic markers or pipe and cable facilities. The locators are easy to use, featuring a simple menu-driven interface that lets you select audio sounds and enable or disable receiver frequencies depending on your needs.

- 6 active frequencies for direct connect and transmitter output options in 3,5 or 12 watts
- 4 induction frequencies with maximum allowed output power
- Trace view mapping display
- Push button depth to all underground markers (passive and iD)
- Receiver rechargeable battery kit
- All frequency mode in direct connect (4 simultaneously)
- Automatic impedance matching
- Ohm meter with high voltage detection
- Rugged, industrial temperature range
- 240VAC output protection
- Reads and writes to 3M iD Markers

## 3M" ${ }^{\text {" }}$ Dynatel" ${ }^{\text {" }}$ Marker/ EMS Tape Locator 7420

- Locate all frequencies of 3M EMS Path Marking Tape/Rope
- Detects industry standard electronic markers frequencies
- 3M iD marker read and write capability
- Locate EMS tape/rope and be alerted to electronic marker of same frequency
- Marker maximum read range up to 9 ft . (2.4m) depth
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers
- Push button depth estimation for 3M passive iD markers and EMS Tape
- Light weight with excellent balance and ergonomics
- Large backlit, high-resolution graphic display
- Rechargeable battery kit

3M"' Dynatel"' iD Marker/ EMS Tape Locator 7420

## 3M" Dynatel" ${ }^{\text {" }}$ Cable/Pipe Locator 2500 Series

Cable/Pipe Locators 2550
Cable/Pipe and Marker Locators 2550-iD
Cable/Pipe/Fault Locators 2573
Cable/Pipe/Fault and Marker Locators 2573-iD

Offering a broad feature set with advanced digital processing, the Dynatel locators 2500 series combine simple interfaces with precision locating capabilities for six active frequencies. Additionally, the trace view mode presents an intuitive user interface that graphs the position and direction of the utility being located.

## Dynatel Locators 2500 Series

- Trace view mapping: graphic display of the cable direction and position
- Five locating modes: Trace View, Directional Peak, Directional Null, Single (Special) Peak, and Induction Peak
- Six active frequencies: 577, 1k, 8k, 33k, 82k, 200k (133k for Export models)
- All frequency mode in direct connection (four frequencies simultaneously)
- Four induction frequencies: 8 k , 33k, 82k, 200k (133k for Export models)
- Transmitter has 3, 5 and 12 Watt (maximum) power output options
- Fault finding option
- Electronic marker locate/read/ write and alert mode option
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers

## 3M ${ }^{\text {TM }}$ Dynatel $^{\text {™ }}$ Marker Locator 1420

- Detects industry standard electronic markers frequencies
- 3M iD marker read/write capability and depth estimation
- Marker maximum read range up to 8 ft . $(2.4 \mathrm{~m})$ depth
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers
- Light weight with excellent balance and ergonomics
- Large backlit, high-resolution graphic display

## 3M ${ }^{\text {m" }}$ Dynatel ${ }^{\text {m }}$ Locators 2200 Series

Cable/Pipe Locator 2250
Cable/Pipe/Fault Locator 2273

Dynatel locators 2200 series are built specifically to find the path and estimated depth of buried cables and pipes. Dynatel locators 2200 series have four active frequencies:

- Passive frequencies (for power)
- Auxiliary frequencies (or long distance
- Cathodic protection locating from remote transmitters)
- CATV

They also offer toning of aerial cable, direct readout of active duct probe, and cable/pair identification.

Receivers have an "expander" function which differentiates between two conductors carrying the same tone by enhancing the amplitude difference. Both the receiver and the transmitter also feature a self-test that runs each time the unit is turned on.

Other features include:

- Three locating modes: Peak, Null and Differential
- All frequency mode in direct connection (4 frequencies simultaneously)
- Transmitter has 3 and 5 Watt output options

Limited Warranty: 3M provides the following Limited Warranty for its EMS Marking Tape 7600 Series and EMS Rope 7700 Series Products: When installed in accordance with 3M's installation instructions, 3M warrants EMS Marking Tape and EMS Rope for a period of one (1) year from the date of purchase of the product, to be free from defects in material and manufacture, provided EMS Marking Tape and EMS Rope are located with $3 M^{\text {m" }}$ Dynatel"' Locators or other brand locators as may be designated by 3 M in writing. This warranty does not extend to EMS Marking Tape and/or EMS Rope that has been subjected to misuse or improper application or that have been repaired or altered by others. 3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. If the EMS Marking Tape and/or EMS Rope is found to be defective within the warranty period, your exclusive remedy shall be, at 3M's options, to repair or replace the EMS Marking Tape and/or EMS Rope or refund the purchase price. Except where prohibited by law, 3M will not be liable for any direct, indirect, special, incidental or consequential loss or damages arising from this 3M product, regardless of the legal theory asserted.

Conditional Limited Warranty: 3M provides the following Conditional Limited Warranty for its iD Electronic Marker Products: When installed in accordance with 3M's installation instructions, 3M warrants iD Electronic Markers for a period of ten (10) years from the date of purchase of the product, to be free from defects in material and manufacture, provided iD Electronic Markers are located with $3 \mathrm{M}^{\mathrm{mm}}$ Dynatel"' Locators or other brand locators as may be designated by 3 M in writing. This warranty does not extend to iD Electronic Markers that have been subjected to misuse or improper application or that have been repaired or altered by others. 3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE. If the iD Marker is found to be defective within the warranty period, your exclusive remedy shall be, at 3M's options, to repair or replace the iD Markers or refund the purchase price. Except where prohibited by law, 3M will not be liable for any direct, indirect, special, incidental or consequential loss or damage arising from this 3 M product, regardless of the legal theory asserted.

Conditional Lifetime Warranty: 3M provides the following Conditional Limited Warranty for its Electronic Marker Products (non-iD versions only): When installed in accordance with 3M's installation instructions, 3M warrants Electronic Markers for the lifetime of the product, to be free from defects in material and manufacture, provided the Electronic Markers are located with $3 \mathrm{M}^{\prime \prime \prime}$ Dynatel"' Locators or other brand locators as may be designated by 3 M in writing. This warranty does not extend to Electronic Markers that have been subjected to misuse or improper application or that have been repaired or altered by others. 3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE. If the Electronic Marker is found to be defective during the normal lifetime of the product, your exclusive remedy shall be, at 3M's options, to repair or replace the Electronic Markers or refund the purchase price. Except where prohibited by law, 3 M will not be liable for any direct, indirect, special, incidental or consequential loss or damage arising from this 3 M product, regardless of the legal theory asserted.

Limited Product Warranty: All 3M products, locating instruments (except accessories), manufacture dated test leads, and rechargeable batteries will conform to 3M's published specifications and will be free from defects in material and manufacture for a period of twelve (12) months from the date of purchase. Dry cell batteries included in any of 3M's products are warranted only to the extent the battery manufacturer determines such batteries are covered by its warranty. Accessories for locating instruments are warranted for ninety ( 90 ) days after purchase. 3M's obligations and liability under this warranty are limited to repairing, replacing or refund of the purchase price, at 3M's option, any of 3M's products which, after normal and proper usage, are determined by 3M to be defective. This warranty does not extend to any of 3M's products which have been subjected to misuse, neglect, accident or improper applications, nor shall it extend to products which have been repaired or substantially altered outside 3M's manufacturing or repair facility, nor to any associated instruments, equipment or apparatus. Before utilizing any of 3M's products, BUYER should determine the suitability of the product for BUYER'S intended use. 3M MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. In no case shall 3 M be liable for any special, incidental, or consequential damages based upon breach of warranty, breach of contract, negligence, strict liability or any other legal theory. This limitation does not apply to claims for personal injury.
